Love that Alters.

"Love is not love that alters when it alteration
finds."—That is one of the sublimest lines in all
literature. It is the final definition of love by
the world's greatest reader of the human
mind.—Shakespeare. Nearly all women
who truly love, love in this sublime way.
Men seldom do.

Woman's most glorious endowment is the
power to awaken and hold the pure and
honest love of a worthy man. When she
loses it and still loves on, no one in the
wide world can know the heart agony she
endures. The woman who suffers from
weakness and derangement of her
special womanly organism soon loses the
power to sway the heart of a man. Her
general health suffers and she loses her
good looks, her attractiveness, her amia-
bility and her power and prestige as a
woman. Dr. R. V. Pierce, of Buffalo, N. Y.,
with the assistance of his staff of able phy-
sicians, has prescribed for many thousands
of women. He has devised a perfect and
scientific remedy for women's ailments. It
is known as Dr. Pierce's Favorite Prescrip-
tion. It is a positive specific for all weak-
nesses, diseases, disorders, displacements,
irregularities, and debilitating drains pec-
uliar to women. It purifies, regulates,
strengthens and heals. Medicine dealers
sell it, and no honest dealer will advise
you to accept a substitute that he may
make a little larger profit.

"I was afflicted with kidney trouble and I
have always had a torpid liver," writes Mrs. R.
Crosswhite, of Dallas, Texas. "I was unable
to stand on my feet. I used one bottle of Dr.
Pierce's Favorite Prescription, and I feel like
a new woman. I am now well and I had
not walked in four months when I commenced
the treatment, but in ten days I was able to
walk everywhere."

TO WHOM IT MAY CONCERN

STATE LAND OFFICE,
CARSON CITY, NEVADA,
July 30, 1898.

NOTICE IS HEREBY GIVEN THAT THE
State of Nevada, under the Act of Con-
gress approved June 10, 1890, (21 Stat. 297),
has filed in the United States Land Office at
Carson City, Nevada, like No. 218 of lands
selected under said Act, and has applied for
a patent for said lands; that a part of said
list is open to the public for inspection, and
a copy thereof, by descriptive sub-divisions,
has been posted in a convenient place in said
United States Land Office for the inspection
of all persons interested and the public gen-
erally.

Within the next sixty days following the
date of this notice, protests or contests
against the claim of said State of Nevada to
any tract or sub-division described in the
list, on the ground that the same is more
valuable for mineral than agricultural pur-
poses, will be received and noted by the Reg-
ister and Receiver of the United States Land
Office at Carson City, Nevada, for report to
the General Land Office at Washington,

ERIE MEDICAL CO., Buffalo, N. Y.

A scientific combined medical and mechanical cure has
been discovered for "Weakness of Men." Its success has
been so startling that the proprietors now announce that
they will send it on trial—remedies and appliances
without advance payment—to any honest man.
If not all that is claimed—all you wish—send it
back—that ends it—pay nothing!
No such offer was ever made in good faith before;
we believe no other remedy would stand such a test.
This combined treatment cures quickly, thoroughly
and forever all effects of early evil habits, inter-
courses, overwork, worry, etc. It cures health,
strength, vitality, sustaining powers and restores
weak and undeveloped portions to natural dimen-
sions and functions.
Any man willing in earnest will receive descrip-
tion, particulars and references in a plain sealed en-
velope. Professional confidence. No deception nor
imposition of any nature. Address a national reputation

THE CANDIDATES OF THE SILVER PARTY.

It is an honor to-day, as it ever has been, to be a Silver party candidate for any office in the gift of the people. The Silver party has for six years been in political control of the State. It has performed its part well in the conduct of the State and county governments. It is strong in the confidence of the people. All uncertainty that its nominees will not score another triumph this election has passed away, and the public may contemplate with satisfaction the certainty of the continuance of the Silver party in power for another term of years.

William M. Stewart will be returned to the Senate to continue his great fight for the cause of silver to which he has devoted the best years of his illustrious life.

Francis G. Newlands will receive again the suffrages of a majority of the voters and honor the State in the Fifty-Sixth Congress as he did in the Fifty-Fifth.

Reinhold Sadler will for another four years be the Chief Executive of the State, and in spite of the malignment of his enemies, will exercise in that capacity the sturdy common-sense and honesty which has stood him in such good stead in the absence of early educational advantages.

James R. Judge will preside as Lieutenant Governor over the deliberations of the next State Senate with the same excellent wisdom which has characterized his official work, since his appointment, to the office of Attorney General.

Charles H. Belknap will continue to lend to the Supreme Bench of the State his great judicial learning, and that integrity of character which has at all times tended to elevate the Court in the esteem of the people.

Eugene Howell will retain the office to which he was elected four years ago to the satisfaction of everyone who recognizes and would reward his ability, courtesy and fidelity in the discharge of public duties.

Dave Ryan, whom Storey county presents as its representative for the responsible office of State Treasurer, will be elected, and no one who can read the honesty in his open and manly face will fear that the office will go to unworthy hands.

Samuel P. Davis, State Controller of Nevada, will be the proud handle with which Sam will grace his name after January 1, 1899, and it is safe to say that the famous humorist will make Nevada a good State Controller.

William D. Jones of Austin will look after the legal interests of the State after New Year, and his well known legal reputation speaks well for the discharge of the duties of the office of Attorney General.

Andrew Maute, well known as the editor of the Belmont Courier and a practical printer will be the next State Printer. Mr. Maute is a man of high standing over the State and has the executive ability to run that important office efficiently and economically.

Edward D. Kelley will be the next Surveyor General, although he has two worthy competitors in Washoe county for the same office. As Mr. Kelley is one of the proprietors of this paper and might therefore be accused of throwing boquets at himself were any flattering statements made concerning him, the JOURNAL, with becoming modesty will abstain.

Henry C. Cutting, a native son of Nevada and a graduate of the State University, will be re-elected to the responsible office of State Superintendent of Public Instruction. Mr. Cutting is a gentleman, a scholar and a hustler and nothing more need be said.

W. E. F. Deal, one of the most efficient Regents the State University ever had, as testified to by all parties connected with that institution, will receive the handsome majority at the polls his faithfulness deserves.

Henry S. Starrett is another of the University's staunchest supporters and will be re-elected a Regent. He is thoroughly familiar with the history and needs of the institution and has always been a beneficial adviser with respect to its development.

The above is the ticket. The principles for which they stand are the restoration of bimetalism and the administration of the State government economically and efficiently.

ONE week from to-day a new Congress will be elected that will pass a free silver bill.

THE POLITICAL SITUATION.

East of Wadsworth there is not a Republican local candidate running for office in Nevada. In Humboldt, Lander, Esmeralda, White Pine and Nye counties every candidate for local office is a Silver man, with the exception of one in Humboldt who is running as a Democrat for the office of District Attorney.

In Elko and Lincoln counties the local tickets are Silver party and Democratic. There are no Republicans running for local offices in these counties.

In Washoe and Churchill counties the local tickets are Silver-Democratic (Fusion) and Republican. In Ormsby, Storey and Douglas, the local tickets are Silver Party and Republican. In Esmeralda and Lyon, there are Silver men and Independents contending for the local offices, but no Republican or Democrats.

The situation politically is this: In seven of the fourteen counties in the State the local candidates are all Silver men. In two counties the Silver men and Democrats are arrayed against each other locally, but there are no Republicans competing for the offices. In two counties the Silver men and Democrats have fused against the Republicans and in three counties the Silver men and Republicans are contending for the local offices. Only in five counties have the Republicans local tickets and only in two counties have the Democrats local tickets.

The Silver party is to-day, as it has been for years, the dominant party. A canvass of the State shows that it will reach Wadsworth with a majority of at least 1,500 and the people, Republicans, Democrats and Populists, who organized the party, and pledged themselves to support no man for office who is not pledged by platform and declaration to the free coinage of silver, see no reason for changing their views or their votes. The causes which led to the organization of the Silver party still exist, and it will continue to be the dominant party in Nevada until Silver is remonetized.

The Washoe Lunch Counter will serve roast chicken, roast duck, lamb and young pig for dinner to-day.

New England Dinner.

A New England dinner will be given by the Ladies' Aid Society of the Baptist Church on election day, November 2nd, in Dr. Thoma's building on Virginia street, near the bridge. Meals 25 cents.

Can Anybody Guess His Name?

It is appropriate to remind the voters of Nevada that one of the principal traders of Senator Stewart was a member of the infamous Louisiana returning board, who acknowledged on the streets of this city on more than one occasion that he was bribed for his work in aiding in swindling Samuel J. WOODBURN.

HIS SPEECH AGAINST SENATOR STEWART.

It is Replied to and Two Counts of His Indictment Quashed.

The Balance Will Be Attended to and Disposed of.

The thanks of the JOURNAL are due to Hon. William Woodburn for a copy of his speech delivered at Carson City Saturday evening, Oct. 29, 1898, entitled "The Crime of '73 Exposed—Demonization of Silver—William M. Stewart the Chief Conspirator—Home Rule for Nevada."

The speech has doubtless been sent to every voter in Nevada, and we recommend that it be read. It is the *summa summarum* of the charges against Senator Stewart. It contains everything that the collective ingenuities of his enemies could devise against him, and all the proofs that they could adduce in support of their position. It is prepared by one of the best lawyers of the State as principal, assisted by Messrs. Coffin, Chartz, Dennis and Truman as coadjutors and advisers. It has received the "O. K." stamp of H. M. Yerington, a distinguished subject of Her Majesty, Queen Victoria of Great Britain.

With this complimentary notice of the authors of the document we might add the modest estimate of his own powers and ability presented by Mr. Woodburn: "It cannot be an exhibition of vanity," he says, "to say that in literary attainments I am your (Senator Stewart's) equal, and in moral character infinitely your superior." The blushing demureness and unpretending humility of this comparison becomes more and more evident as one reads the succeeding pages. As speeches doubtless come within the purview of "literary attainments," Mr. Woodburn later on sweepingly characterizes these products of Senator Stewart's brain and pen, which he claims to be able to equal, as "noticeable only for their monotony, indigestibility and insipidity."

As Mr. Woodburn is also the author of "Charge #1," which appeared in the Carson News, we present this as another evidence of that gentleman's unpretending diffidence in claiming only to equal Senator Stewart in literary ability; as it will be remembered that the burden of that charge was that Senator Stewart is "feeble-minded."

But it is in moral character that Mr. Woodburn lays his chief claim to public attention, as a worthy accuser of Senator Stewart. After a contemplation of his own virtues, immediately subsequent to his arraignment of Senator Stewart, Mr. Woodburn is constrained to admit that his infinite superiority shines out like the apex of Sinai.

Just to what over-mantling heights of purity and sanctity this infundible elevates Mr. Woodburn, we must candidly admit that we are in doubt.

INDICTMENT.

Mr. Woodburn is pleased to follow legal precedent and presents first a complaint against Senator Stewart—which he designates as an "indictment"—and then follows it with his argument, with reference to the several allegations in his complaint, he is candid enough to say at the close of his speech that he has "produced the best evidence the nature of the case affords to sustain them." And to this statement we cheerfully register an acceptance. Mr. Woodburn has undoubtedly earned his fee, however large it may be, and we trust that the Virginia & Truckee Railroad Company will not demur to its payment.

And now let us see what may be said upon the other side of the case. Lawyers are not prone to give much attention to exploiting of rebuttal arguments to controvert any part or the whole of the case they are trying to make out, and Mr. Woodburn is no exception.

The people of Nevada are acquainted with Senator William M. Stewart. He has represented this State in the highest legislative body in this land for twenty-two years. He is now a candidate for re-election to that same exalted office. We shall not express anything which may reasonably be ascribed as untrue when we assert that Senator Stewart bears the reputation of being an ardent, earnest and sincere silver man in the United States at large, and that need has always been accorded him in the State of Nevada up to the commencement of the present campaign. If Hon. Wm. Woodburn is right, we have been mistaken. He claims that we in this State and the public at large have nourished to our bosoms a delusion which it is Mr. Woodburn's paramount mission upon this earth to shatter.

The first count of his indictment is as follows:

"(1.) In your Senatorial career, you (Senator Stewart) never cast an honest vote for the free and unlimited coinage of silver."

There might be much said in reply to this. But we offer only one answer, which we submit to the people of Ne-

vada as proof sufficient of its falsity. We offer Senator Stewart's great reputation as a silver leader, attested to by men like William Jennings Bryan of Nebraska, Bland of Missouri, Teller of Colorado, Morgan of Alabama, Daniel of Virginia, and hosts of others, including the names of every foremost silver leader in America. How does it happen that they are fooled—that they who watch silver legislation with eyes which never sleep have not discovered that Senator Stewart is a foe to the cause, which they as well as himself have devoted a life's work to accomplish. How does it happen that they are fooled?—and the revelation comes to Hon. William Woodburn of Nevada. How does it happen?

THE SECOND COUNT.

The second charge contained in Mr. Woodburn's complaint is as follows:

"(2.) On the 12th day of February, A. D. 1873, you feloniously, corruptly and knowingly voted to demonetize the silver dollar and make the gold dollar the sole unit of value."

This is a charge which has never been made against Senator Stewart by a silver man in public life. On the contrary the debate and vote upon that bill has been analyzed and subjected to the most minute and exhaustive scrutiny ever accorded to the passage of any Act by the American Congress. There are two versions as to how that bill passed, one which is acquiesced in by the silver men of this country, the other put forth by John Sherman and exploited by the gold men. Mr. Woodburn has not only adopted Senator Sherman's version, but stolen bodily all the proofs that he adduced in support of it. It was Mr. Sherman's contention that there was no "crime" attached to the passage of the Act of '73. That silver was demonetized openly and with the full knowledge and consent of Congress. Mr. Woodburn is forced to adopt this theory in order to convict Senator Stewart of having "feloniously, corruptly and knowingly" voted to demonetize silver. In this he takes issue with every silver advocate of note in this land.

We have not time nor space to go into the history of the passage of the Act demonetizing silver. To give a connected and true account of how that legislative crime was committed would occupy more space than the columns of this paper contains. We can only say in *resumé* of it that the title of the bill was "An Act Revising and Amending the Laws Relative to the Mints, Assay Offices and Coinage of the United States." That it contained seventy-one sections and more than ten thousand words. That it was understood in Congress to be merely a revision and codification of laws already on the statute books. There was nothing in the debates in either House upon the bill to indicate that it was considered in any other light. Allen G. Thurman says (Cong. Rec., Vol. 1, part 2, p. 1064): "When the bill was pending in the Senate we thought it was simply a bill to reform the Mint, regulate coinage and fix up one thing and another, and there is not a single man in the Senate, I think, unless a member of the committee from which the bill came, who had the slightest idea that it was even a squint towards demonetization."

To that declaration we might add if we had the space dozens of others to the same effect. It was debated upon various details for three years, the longest debate of record upon it covered portions of the 9th and 10th of January, 1872, and was upon the question of the quantity of nickel to be used in five, three and two-cent pieces. If it were generally known that the bill proposed to legislate silver from among the money metals, is any one so foolish as to believe that that subject would not have given rise to extended debate? Is anyone so foolish?

SILENCE OF NEWSPAPERS.

Not a newspaper in the land in 1873 had a small or a large item that Congress had demonetized silver. Does that indicate that it was openly and notoriously done? How strange, if so, that so momentous an act was permitted to escape the attention of the vigilant newspapermen of this country.

It is the silver men's contention that the section of the Act demonetizing silver was surreptitiously inserted into the bill by the Committee of Conference which had the bill in charge after it had passed both Houses. Senator Sherman was Chairman of that Committee, which consisted of three members from each House. Neither Senator Sherman nor any other member has ever been able to show in the records of that time when the alleged Senate amendment numbered 15 to the bill ever passed the Senate. It was added to the bill after its passage, as all evidence goes to show. This was the section which demonetized silver.

There is one more salient fact in connection with this matter to which we wish to call attention. Senator Sherman, who fathered the bill, and a majority of the Finance Committee of the Senate which reported it favorably, voted against it upon its final passage. On the other hand, among those who voted for it were Senator Stewart, Senator Allen G. Thurman, the Old Roman, and the lamented Senator Beck, three of the staunchest silver men who ever sat in the Senate of the United States, and if Senator Stewart "feloniously, corruptly and knowingly" voted to demonetize silver, so did Thurman, Beck, Voorhees, Garfield, Blaine and others. Is Mr. Woodburn prepared to couple them in his charge?

Mr. Woodburn says: "When the bill was called up for final consideration the section demonetizing the silver dollar was printed in double-headed type and was the first one discussed; it was debated by Cole and Casserly of California; Bayard, Sumner, Morrill and Edmunds; and by

Senators Nye and Stewart of Nevada. The remarks of the "grand old man" can be found in the Congressional Globe for 1870-71 on pages 371, 372, 373, 374, 377, 398 and 397.

Now we undertake to call Hon. William Woodburn down pretty hard upon this statement for two reasons. First, he puts the "final consideration" of the bill three years before it happened; and second, the debate in which the Senators mentioned took part was upon the question of the resumption of specie payment. This was a little error which John Sherman made and which Mr. Woodburn, with pardonable ignorance, fell into when he copied the statement.

Mr. Woodburn quotes under the same head two extracts from Senator Stewart's speeches on resumption, conveying the idea that they were delivered upon the Act in question. It will be remembered in this connection that the country was upon a greenback basis from the breaking out of the Civil War until January 1, 1879. One of the absorbing questions at this time was that of the return to specie payments by the Government. The term "gold" was used by speakers both inside and out of the halls of Congress as synonymous with "specie." This fact being remembered, and the subject actually under discussion known, the extracts from Senator Stewart's speeches contained upon page 16 of Mr. Woodburn's printed speech have an interpretation redounding to Senator Stewart's honor and credit.

(To be Continued.)

H. F. Leete on the Franchise.

The man that sells his vote neither picks a pocket nor robs a stage nor holds up a railroad train, but he sells the birthright of his children. The man who will buy or sell the franchise of an American citizen or interfere to oppress or control in any manner his free and independent exercise of the right to vote, or interfere to oppress or control in any manner primary meetings of citizens, or delegates in nominating conventions or legislatures in the free and independent exercise of the functions of their respective offices, is guilty of treason to the American Government and should be punished accordingly.

Doubled the Force.

H. M. Yerington has doubled his force upon the Carson News and that paper is now producing slander at the rate of eleven columns a day. Hon. William Woodburn, Alf Chartz and Trennor Coffin are doing the principal editorial work, with an occasional article from James F. Dennis.

The Virginia and Truckee Railroad will foot the bills temporarily, but the people will have to pay them in the end.

The JOURNAL is fully competent to hold the syndicate level by the interjection of truth and fact into their gauzy creations, which it will do between now and the close of the campaign.

Football Rally at the University.

An enthusiastic crowd of students and their friends gathered in the University gymnasium last evening to welcome the victorious football team on its return from California. Stirling speeches were made by Rev. F. V. Jones and Prof. Jackson, Messrs. Boyle and Lamb of the student body, McCarran and Smith of the winning team, and Coach Ellis. Dr. Stubbs echoed the sentiment of the whole audience when, in his closing remarks, he predicted victory for the team in their coming contest with Belmont. Bonfires and music enlivened the occasion and the gymnasium has seldom held so jubilant an assemblage.

Some Good Campaign Work.

Mr. E. D. Kelley, editor of the Reno JOURNAL, has about finished his campaign tour of the State. He has spoken in fifteen towns in the State in company with Governor Sadler and the editor of the Appeal, and the solid facts presented in his speeches on the needs of the hour and the method of putting up the various conventions which oppose the silver party, have opened the eyes of the people wherever he has spoken, and the facts as laid down by him have never been either denied nor disproven. Mr. Kelley has done excellent work in this campaign.—Appeal.

Explanatory.

B. F. Currier and E. E. Copeland participated in a strong political discussion in the Monarch saloon Saturday evening, which resulted in the production of firearms, but more serious outcome was averted by the prevalence of better judgment.

The above from the Gazette gives out the inference that Mr. Copeland produced the firearms. Mr. Copeland was totally unarmed and the firearms were exhibited by Mr. Currier.

A Nevada Boy's Success.

Harry E. Stewart, formerly of the State University, now a well known mining man and assayer of Washington, has been appointed Superintendent of the Golden Harvest and Butte and Boston mines of Republic, Washington. His appointment gives much satisfaction to all interested parties, as it insures an active, intelligent development of both properties. So says the Rosalind, B. C., Miner.

Purified and Strengthened.

With Stewart was driven from the Republican party almost every one of his kind until to-day the party he was forced to leave stands for Nevada, and for every interest of Nevada, against corruption and misrule, purified and strengthened.—News.

This is certainly too good to be true.

PLATFORM.

The Silver Party of Nevada pledges its unwavering devotion to the principles of government laid down by Jefferson and Lincoln. That the highest duty of government is to so regulate its laws that the spirit of equality shall follow men through life, giving each ample opportunity to work out to the fullest measure his possibilities, unrestricted by law, and unaffected by the conquest of his dominion of opportunity by other men. We endorse, as expressing the demands of the American people in consonance with the foregoing, the platform of the National Silver Party formulated at St. Louis, July 23, 1896, and the financial plank of the National Democratic Party adopted at Chicago, July 7, 1896.

The history of the movement for the restoration of bimetalism is the glorious story of Nevada's leadership in the struggle for the redemption of her glorious record. Nevada will take her place again in the conflict, not as the ally of Gold, but on the side of those who struggle in the fields of adversity.

We reaffirm our devotion to the free and limited coinage of silver at the ratio of 16 to 1 by the independent action of the United States, and we are unalterably opposed to the Republican policy of increasing the bonded debt, of transferring the sovereign power of the government to issue money to banking institutions, of contracting the circulating medium to the single gold standard, and of increasing taxation while contraction is diminishing the means of payment.

Our faith in the loyalty, ability, and wise leadership of William J. Bryan is undiminished, and we predict for the silver forces of the United States, with 16 to 1 as their motto, and William J. Bryan as their standard bearer, an overwhelming victory in 1899.

We invite the co-operation of the Republican party of Nevada who declared in their platform of May 20, 18 0, as follows:

"Resolved That the Republican party of this state is in favor of free and unlimited coinage of both gold and silver; that it holds to the principle of party faith and a test of party allegiance, that it will permit of no abandonment of the principle of the declaration that let whoever prove resistant to the principle of bimetalism it will remain steadfast thereto."

And who on May 9, 1896, at Virginia City, declared as follows:

"We again reiterate our steadfast devotion to the cause of the free and unlimited coinage of silver, and declare that our judgment of the restoration of the true bimetallic standard of value as it existed prior to 1876, namely, as the ratio of 16 to 1, is an absolute and indispensable requirement before the financial system of our government will afford the people a value of stable circulating money sufficient to place the business of the country on a permanently prosperous basis."

We endorse the action of Nevada's representatives with respect to tariff and financial legislation; commending their patriotic support of the administration in time of war, whilst using all efforts to prevent the issuance of bonds.

We say to the Republican party of Nevada: Do not the beneficent results of the tariff schedules of the Dingley bill which affect Nevada, and which Nevada's silver representatives secured, namely: wool, cattle, hides, cyanide, and borax, fall upon you as the rain falls upon the just and the unjust? And if so, in what manner could Republican Representatives have done more?

We say to the Democratic party of Nevada: Has not the action of Nevada's Representatives on financial legislation been in keeping with the Democratic platform of 1896, and, in this respect, could Democratic Representatives have done more?

We express our profound appreciation of the tireless efforts of Nevada's grand old man, Wm. M. Stewart, not only as the leader of the silver cause in America, but for his great devotion to the local interests of the State, as exemplified by the fact that he has been the author of many of the important measures affecting Nevada's interests which have been enacted by Congress; namely, the mining laws of the United States, the Carson Desert, the Stewart Institute, the establishment of the Agricultural Experiment Station, which enables the State University to receive \$40,000 a year Government aid, and the securing of a military instructor at the State University.

We further commend his efforts, now likely soon to be crowned with success, to secure the payment to the State and citizens of Nevada of nearly half a million dollars for monies expended in the suppression of the war of the rebellion, and Indian outbreaks. We endorse his proposal to secure legislation making Lake Tahoe and vicinity a national park, the Government purchasing on an equitable basis the rights of private citizens whose interests are affected, as not only preserving from destruction one of Nature's grandest works, but giving the National Government control for irrigation purposes of a great lake reservoir, which will guarantee the farmers along the Truckee River more water for irrigation, and enable a vast additional area of arid land to be brought under cultivation.

We earnestly recommend the re-election of Wm. M. Stewart to the Senate of the United States, and pledge the Silver party of Nevada and the nominees of this convention to his support for that office.

To our other Senator, John P. Jones, we extend the gratitude of a people who rejoice that they have such a great public servant who has honored the commonwealth which has delighted to honor him. His prominent knowledge of all financial questions has been used by him for the benefit of the whole world, and his speeches in the United States Senate upon the silver question have become the text book of those statesmen who are devoted to the interests of the whole people.

We take pride in the career of Francis G. Newlands in Congress, notably in the fact that he has risen in six years to a place among the leaders of the House, and that his influence in public affairs is becoming more and more manifest as shown by his great part in the annexation of the Hawaiian Islands, a consummation anticipated and desired by the American people for more than fifty years. We declare that Nevada cannot afford to lose him as her Representative in the halls of Congress.

Recognizing the importance of State development upon agricultural lines, we commend the efforts of our Representative in Congress to secure for the State of Nevada legislation looking to the reclamation of arid lands, and the storage of water in reservoirs, and of our Senators and Representatives in Congress.

The United States is now in the rightful control of Cuba, Porto Rico, and the Philippine Islands, and we are in favor of holding the same until the American people shall have time to consider and make such disposition of the new acquisitions as sound policy and the interests of the whole country may require.

We favor the construction of the Nicaragua canal by the Government of the United States of America as a political and commercial necessity.

At the last session of Congress a law having been passed providing for the settlement of the indebtedness of the Central Pacific railroad to the Government of the United States, the terms of which require the payment of the entire debt, principal and interest, within ten years, with interest at the rate of 3 per cent per annum, and on failure to make such settlement within one year, the mortgage on the United States to be at once foreclosed, and the property sold to the highest bidder, we favor foreclosure according to the terms of said Act in case its conditions regarding settlement are not complied with.

Certain decisions of the United States courts having shorn the Inter State Commerce Commission of the authority and powers undoubtedly intended to be conferred upon it when originally created, we favor such amendments to the Act as will make it an effective protection to the people against discriminating tariffs.

The heroism and valor of the American soldier and sailor have won additional laurels during the war with Spain. The story of the brave deeds of our naval and military heroes will forever form a glorious page in American history. On land as well as sea America's defenders have proven their unsurpassed courage. Praising those who fought our battles, we condemn the traitorous conduct of those officials, wherever responsibility may rest, to whose culpability is due the death by starvation and disease of several thousand of our men.

We demand that the awful scandals involved in the conduct of the war be carefully and completely investigated, and that adequate punishment be meted to those who have been guilty of such conduct.

The people of Nevada are justly proud of their University. We commend the efficient management which has made it an institution of infinite usefulness and widening possibilities. Its influence is already felt as a potent factor for the intellectual and economic development of the State. We pledge to it generous support and hearty co-operation along every line that will tend to maintain its present high standard or conduce to its improvement.

This convention pledges its nominees for Governor that he will approve of such legislation as will carry out the intent of the sixth section of Article 10 of the State Constitution which provides that the Legislature shall provide a special tax which shall not exceed two mills on the dollar of all taxable property in the State in addition to the other means provided for the support and maintenance of the State University and common schools. This convention recommends all county conventions of the Silver party to pledge their support to the State Legislature to carry into effect the State Constitution by passing a bill levying a tax of one mill on the dollar of all taxable property in this State in addition to the other means now provided by law for the support and maintenance of the State University and common schools of this State.

We invite comparison of the four years during which the Silver Party has been in control of the State Government with the last four years of the Republican regime. The expenses of the last Republican Legislature amounted to \$51,000, that of the last Silver Party Legislature, \$25,500. The expenses of the Executive Department for the last year immediately preceding Silver Party rule, 1897, amounted to \$38,500, while but \$26,500 were the expenses of the Executive Department for 1897. For the last four years of Republican management \$8,000 were expended in public buildings, against \$97,000 by the Silver Party. And during the periods in comparison, in support of the public schools of the State, the Silver Party expended \$97,000 as against \$284,800 by the Republican Party. And many other facts and figures might be adduced, without the resulting conviction that the Silver Party has fulfilled its promise of retrenchment with reference to salaries of public officials, and the curtailment of unnecessary expenses, while, on the other hand, it has generously fostered the educational and charitable institutions of the State and wisely contributed to its public improvement.
